SUBJECT INDEX

Acidity
Evaluation of the relative acid strength of cerium and calcium exchanged Y zeolite by TG and DSC 129
Adsorption
Adsorption et desorption de l'eau vapeur sur un polymère polyacrylique absorbant. Partie 3. Rôle de l'effet thermique local sur la cinétique d'adsorption 271
Alkanediol
Vaporization enthalpies of a series of α,ω-alkanediols from vapour pressure measurements 65
Amino acid
Aqueous solutions containing amino acids and peptides. Part 29. The enthalpies of dilution of some amino acids at 25°C 41
Ammonium perchlorate
The thermal decomposition of ammonium perchlorate (AP) containing a burning-rate modifier 135
Antimony
Combustion reactions of antimony + potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193
Apparatus
A method for the experimental determination of the kinetic characteristics of the thermal decomposition processes of inorganic compounds near the upper boundary of the metastable state 281
Atmosphere
A study by thermal analysis of the reversible folding in palygorskite under vacuum thermal treatment 83
Thermal decomposition kinetics of natural Turkish limestones under non-isothermal conditions 121

Bacteria
A study of the optimum fungistatic action of a synthetic medicine using a microcalorimetric method 23
Determination of the thermograms and establishment of the experimenal law for bacterial growth and study of kinetic properties 29
Binary system
Excess molar volumes of some binary methyl *tert*-butyl ether + C_6-hydrocarbon mixtures at 298.15 K 35
A thermodynamic evaluation of the Mn–Te binary system 51
The phase diagrams of $LiNO_3$–$NaNO_3$ and $LiNO_3$–KNO_3: the behaviour of liquid mixtures 145
Biological calorimetry
A study of the optimum fungistatic action of a synthetic medicine using a microcalorimetric method 23
Determination of the thermograms and establishment of the experimenal law for bacterial growth and study of kinetic properties 29
Bismuth compound
Thermal decomposition of analytically important thiocyanatochromates(III). Part 2 93
Burning profile
The thermal decomposition of ammonium perchlorate (AP) containing a burning-rate modifier 135
Burning-rate modifier
The thermal decomposition of ammonium perchlorate (AP) containing a burning-rate modifier 135
Butadiene
Calibration for the composition of polymeric composites using TG/GC 259

Calcination
Calcination kinetics of limestone and the microstructure of nascent CaO 109
Calcium oxide
Calcination kinetics of limestone and the microstructure of nascent CaO 109
Calibration
Development of a high-temperature differential scanning calorimeter equipped with a triple-cell system 7
Calibration for the composition of polymeric composites using TG/GC 259
Carbide
Synthesis of oxides, oxocarbides and carbides of molybdenum by thermal decom-

position of diethylenetriamine oxomolybdenum compounds 167
Carboxylate
Thermal and spectroscopic studies of the Ag(I) salts with fluorinated carboxylic and sulfonic acid residues 207
Cobalt compound
A solution calorimetric study of tris(diethyldithiocarbamato)cobalt(III) 187
Copolymer
Calibration for the composition of polymeric composites using TG/GC 259
Crystallization
Crystallization in glass-forming aqueous solutions during warming: numerical construction of non-isothermal DSC thermocurves during warming from isothermal data. Application to 42.5% w/w 1,2-propanediol/water 157

Decarboxylation
Thermal stability of dithiocarbamates derived from α-amino acids with different metal ions 213
Decomposition
Thermal decomposition kinetics of natural Turkish limestones under non-isothermal conditions 121
The thermal decomposition of ammonium perchlorate (AP) containing a burning-rate modifier 135
Synthesis of oxides, oxocarbides and carbides of molybdenum by thermal decomposition of diethylenetriamine oxomolybdenum compounds 167
Intrinsic kinetics of the thermal decomposition of sodium bicarbonate 177
Thermal and spectroscopic studies of the Ag(I) salts with fluorinated carboxylic and sulfonic acid residues 207
The thermal decomposition of zirconium sulphate hydrate 223
Properties and thermal decomposition in air atmosphere of Co(II), Ni(II), Cu(II) and Zn(II) benzene-1,2-dioxyacetates 241
A method for the experimental determination of the kinetic characteristics of the thermal decomposition processes of inorganic compounds near the upper boundary of the metastable state 281
Dehydration
Thermal stability of dithiocarbamates derived from α-amino acids with different metal ions 213
The thermal decomposition of zirconium sulphate hydrate 223
Properties and thermal decomposition in air atmosphere of Co(II), Ni(II), Cu(II) and Zn(II) benzene-1,2-dioxyacetates 241
Diffusion
An approach to the solution of the inverse kinetic problem in the case of complex processes. Part 4. Chemical reaction complicated by diffusion 201
Dimer
Computed gas-phase thermodynamics of N_2 association 1
Dithiocarbamate
Thermal stability of dithiocarbamates derived from α-amino acids with different metal ions 213
Dolomite
Calcination kinetics of limestone and the microstructure of nascent CaO 109
Drug
A study of the optimum fungistatic action of a synthetic medicine using a microcalorimetric method 23
DSC
Development of a high-temperature differential scanning calorimeter equipped with a triple-cell system 7
A study by thermal analysis of the reversible folding in palygorskite under vacuum thermal treatment 83
Reduced equations to estimate kinetic parameters from non-isothermal TG–DTG or DSC curves 101
Evaluation of the relative acid strength of cerium and calcium exchanged Y zeolite by TG and DSC 129
The thermal decomposition of ammonium perchlorate (AP) containing a burning-rate modifier 135
The phase diagrams of $LiNO_3$–$NaNO_3$ and $LiNO_3$–KNO_3: the behaviour of liquid mixtures 145
Crystallization in glass-forming aqueous solutions during warming: numerical construction of non-isothermal DSC thermocurves during warming from isothermal data. Application to 42.5% w/w 1,2-propanediol/water 157
Combustion reactions of antimony + potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193
The thermal decomposition of zirconium sulphate hydrate 223
Differential scanning calorimetry of the solid-state thermal polymerization of *N-tert*-butylacrylamide–$ZnCl_2$ complex 251
DTA
A thermodynamic evaluation of the Mn–Te binary system 51
Thermal decomposition of analytically im-

portant thiocyanatochromates(III). Part 2 93
The thermal decomposition of ammonium perchlorate (AP) containing a burning-rate modifier 135
Synthesis of oxides, oxocarbides and carbides of molybdenum by thermal decomposition of diethylenetriamine oxomolybdenum compounds 167
Thermal stability of dithiocarbamates derived from α-amino acids with different metal ions 213
The thermal decomposition of zirconium sulphate hydrate 223
A thermal study of the SiO_2–ZrO_2 sol–gel system 233
Properties and thermal decomposition in air atmosphere of Co(II), Ni(II), Cu(II) and Zn(II) benzene-1,2-dioxyacetates 241

DTG
A study by thermal analysis of the reversible folding in palygorskite under vacuum thermal treatment 83
Reduced equations to estimate kinetic parameters from non-isothermal TG–DTG or DSC curves 101
Evaluation of the relative acid strength of cerium and calcium exchanged Y zeolite by TG and DSC 129
Synthesis of oxides, oxocarbides and carbides of molybdenum by thermal decomposition of diethylenetriamine oxomolybdenum compounds 167
Combustion reactions of antimony + potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193
Properties and thermal decomposition in air atmosphere of Co(II), Ni(II), Cu(II) and Zn(II) benzene-1,2-dioxyacetates 241
Calibration for the composition of polymeric composites using TG/GC 259

Effusion
Vaporization enthalpies of a series of α,ω-alkanediols from vapour pressure measurements 65

Equipment
Development of a high-temperature differential scanning calorimeter equipped with a triple-cell system 7
Determination of the thermograms and establishment of the experimenal law for bacterial growth and study of kinetic properties 29
A method for the experimental determination of the kinetic characteristics of the thermal decomposition processes of inorganic compounds near the upper boundary of the metastable state 281

Escherichia
A study of the optimum fungistatic action of a synthetic medicine using a microcalorimetric method 23

Excess molar volume
Excess molar volumes of some binary methyl *tert*-butyl ether + C_6-hydrocarbon mixtures at 298.15 K 35

Fuel
Combustion reactions of antimony + potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193

Gas
Computed gas-phase thermodynamics of N_2 association 1

GC
Calibration for the composition of polymeric composites using TG/GC 259

Gel
A thermal study of the SiO_2–ZrO_2 sol–gel system 233

Glass
Crystallization in glass-forming aqueous solutions during warming: numerical construction of non-isothermal DSC thermocurves during warming from isothermal data. Application to 42.5% w/w 1,2-propanediol/water 157

Heat capacity
Development of a high-temperature differential scanning calorimeter equipped with a triple-cell system 7

Heat of dilution
Aqueous solutions containing amino acids and peptides. Part 29. The enthalpies of dilution of some amino acids at 25°C 41

Heat of formation
A solution calorimetric study of tris(diethyldithiocarbamato)cobalt(III) 187

Heat of fusion
The phase diagrams of $LiNO_3$–$NaNO_3$ and $LiNO_3$–KNO_3: the behaviour of liquid mixtures 145

Heat of polymerization
Differential scanning calorimetry of the solid-state thermal polymerization of *N-tert*-butylacrylamide–$ZnCl_2$ complex 251

Heat of vaporization
Vaporization enthalpies of a series of α,ω-alkanediols from vapour pressure measurements 65

Hot-stage microscopy
Combustion reactions of antimony +

potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193

Hydrocarbon
Excess molar volumes of some binary methyl *tert*-butyl ether + C_6-hydrocarbon mixtures at 298.15 K 35

Inhibitor
A study of the optimum fungistatic action of a synthetic medicine using a microcalorimetric method 23

Innovation
Development of a high-temperature differential scanning calorimeter equipped with a triple-cell system 7
Determination of the thermograms and establishment of the experimenal law for bacterial growth and study of kinetic properties 29
A method for the experimental determination of the kinetic characteristics of the thermal decomposition processes of inorganic compounds near the upper boundary of the metastable state 281

IRS
Thermal and spectroscopic studies of the Ag(I) salts with fluorinated carboxylic and sulfonic acid residues 207
Properties and thermal decomposition in air atmosphere of Co(II), Ni(II), Cu(II) and Zn(II) benzene-1,2-dioxyacetates 241

Isokinetic
Adsorption et desorption de l'eau vapeur sur un polymère polyacrylique absorbant. Partie 3. Rôle de l'effet thermique local sur la cinétique d'adsorption 271

Kinetics
The correlation between the value of α at the maximum reaction rate and the reaction mechanisms. A theoretical study 75
Thermal decomposition of analytically important thiocyanatochromates(III). Part 2 93
Reduced equations to estimate kinetic parameters from non-isothermal TG–DTG or DSC curves 101
Calcination kinetics of limestone and the microstructure of nascent CaO 109
Thermal decomposition kinetics of natural Turkish limestones under non-isothermal conditions 121
Intrinsic kinetics of the thermal decomposition of sodium bicarbonate 177
An approach to the solution of the inverse kinetic problem in the case of complex processes. Part 4. Chemical reaction complicated by diffusion 201

Knudsen
Vaporization enthalpies of a series of α,ω-alkanediols from vapour pressure measurements 65

Lead compound
Thermal decomposition of analytically important thiocyanatochromates(III). Part 2 93

Limestone
Calcination kinetics of limestone and the microstructure of nascent CaO 109
Thermal decomposition kinetics of natural Turkish limestones under non-isothermal conditions 121

Living system
A study of the optimum fungistatic action of a synthetic medicine using a microcalorimetric method 23

Mangenese
A thermodynamic evaluation of the Mn–Te binary system 51

Mechanism
The correlation between the value of α at the maximum reaction rate and the reaction mechanisms. A theoretical study 75
Thermal decomposition kinetics of natural Turkish limestones under non-isothermal conditions 121
Adsorption et desorption de l'eau vapeur sur un polymère polyacrylique absorbant. Partie 3. Rôle de l'effet thermique local sur la cinétique d'adsorption 271

Metastable
A method for the experimental determination of the kinetic characteristics of the thermal decomposition processes of inorganic compounds near the upper boundary of the metastable state 281

Microcalorimetry
A study of the optimum fungistatic action of a synthetic medicine using a microcalorimetric method 23

Mixed oxide
Thermal decomposition of analytically important thiocyanatochromates(III). Part 2 93

Model
A thermodynamic evaluation of the Mn–Te binary system 51
Calcination kinetics of limestone and the microstructure of nascent CaO 109
Intrinsic kinetics of the thermal decomposition of sodium bicarbonate 177

Molybdenum compound
Synthesis of oxides, oxocarbides and carbides of molybdenum by thermal decomposition of diethylenetriamine oxomolybdenum compounds 167
MTBE
Excess molar volumes of some binary methyl *tert*-butyl ether + C_6-hydrocarbon mixtures at 298.15 K 35

Nascent
Calcination kinetics of limestone and the microstructure of nascent CaO 109
Nitrate
The phase diagrams of $LiNO_3$–$NaNO_3$ and $LiNO_3$–KNO_3: the behaviour of liquid mixtures 145
NMR
Thermal and spectroscopic studies of the Ag(I) salts with fluorinated carboxylic and sulfonic acid residues 207
Non-ideal
A thermodynamic evaluation of the Mn–Te binary system 51
Non-isothermal
The correlation between the value of α at the maximum reaction rate and the reaction mechanisms. A theoretical study 75
Reduced equations to estimate kinetic parameters from non-isothermal TG–DTG or DSC curves 101
Crystallization in glass-forming aqueous solutions during warming: numerical construction of non-isothermal DSC thermocurves during warming from isothermal data. Application to 42.5% w/w 1,2-propanediol/water 157
Intrinsic kinetics of the thermal decomposition of sodium bicarbonate 177

Oxidation
Combustion reactions of antimony + potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193
Oxide
Synthesis of oxides, oxocarbides and carbides of molybdenum by thermal decomposition of diethylenetriamine oxomolybdenum compounds 167
Oxocarbide
Synthesis of oxides, oxocarbides and carbides of molybdenum by thermal decomposition of diethylenetriamine oxomolybdenum compounds 167

Palygorskite
A study by thermal analysis of the reversible folding in palygorskite under vacuum thermal treatment 83
Pellet
Combustion reactions of antimony + potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193
Peptide
Aqueous solutions containing amino acids and peptides. Part 29. The enthalpies of dilution of some amino acids at 25°C 41
Phase
A thermodynamic evaluation of the Mn–Te binary system 51
The phase diagrams of $LiNO_3$–$NaNO_3$ and $LiNO_3$–KNO_3: the behaviour of liquid mixtures 145
Polymer
Differential scanning calorimetry of the solid-state thermal polymerization of *N-tert*-butylacrylamide–$ZnCl_2$ complex 251
Calibration for the composition of polymeric composites using TG/GC 259
Adsorption et desorption de l'eau vapeur sur un polymère polyacrylique absorbant. Partie 3. Rôle de l'effet thermique local sur la cinétique d'adsorption 271
Polymorphism
A thermodynamic evaluation of the Mn–Te binary system 51
Polystyrene
Calibration for the composition of polymeric composites using TG/GC 259
Porosity
Calcination kinetics of limestone and the microstructure of nascent CaO 109
Potassium permanganate
Combustion reactions of antimony + potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193
Precision
Development of a high-temperature differential scanning calorimeter equipped with a triple-cell system 7
Program
Thermal decomposition kinetics of natural Turkish limestones under non-isothermal conditions 121
Calibration for the composition of polymeric composites using TG/GC 259
Propanediol
Crystallization in glass-forming aqueous solutions during warming: numerical construction of non-isothermal DSC thermo-

curves during warming from isothermal data. Application to 42.5% w/w 1,2-propanediol/water 157
Pyrolysis
Thermal decomposition of analytically important thiocyanatochromates(III). Part 2 93
Thermal stability of dithiocarbamates derived from α-amino acids with different metal ions 213
Silica
A thermal study of the SiO_2–ZrO_2 sol–gel system 233
Silicate
A study by thermal analysis of the reversible folding in palygorskite under vacuum thermal treatment 83
Silver compound
Thermal and spectroscopic studies of the Ag(I) salts with fluorinated carboxylic and sulfonic acid residues 207
Sodium bicarbonate
Intrinsic kinetics of the thermal decomposition of sodium bicarbonate 177
Sol
A thermal study of the SiO_2–ZrO_2 sol–gel system 233
Solution calorimetry
A solution calorimetric study of tris(diethyldithiocarbamato)cobalt(III) 187
Staphylococcus
A study of the optimum fungistatic action of a synthetic medicine using a microcalorimetric method 23
Styrene
Calibration for the composition of polymeric composites using TG/GC 259
Telluride
A thermodynamic evaluation of the Mn–Te binary system 51
Tellurium
A thermodynamic evaluation of the Mn–Te binary system 51
TG
A study by thermal analysis of the reversible folding in palygorskite under vacuum thermal treatment 83
Thermal decomposition of analytically important thiocyanatochromates(III). Part 2 93
Reduced equations to estimate kinetic parameters from non-isothermal TG–DTG or DSC curves 101
Evaluation of the relative acid strength of cerium and calcium exchanged Y zeolite by TG and DSC 129
The thermal decomposition of ammonium perchlorate (AP) containing a burning-rate modifier 135
Synthesis of oxides, oxocarbides and carbides of molybdenum by thermal decomposition of diethylenetriamine oxomolybdenum compounds 167
Combustion reactions of antimony + potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193
Thermal and spectroscopic studies of the Ag(I) salts with fluorinated carboxylic and sulfonic acid residues 207
Thermal stability of dithiocarbamates derived from α-amino acids with different metal ions 213
Properties and thermal decomposition in air atmosphere of Co(II), Ni(II), Cu(II) and Zn(II) benzene-1,2-dioxyacetates 241
Differential scanning calorimetry of the solid-state thermal polymerization of *N-tert*-butylacrylamide–$ZnCl_2$ complex 251
Calibration for the composition of polymeric composites using TG/GC 259
TGA
Calcination kinetics of limestone and the microstructure of nascent CaO 109
The thermal decomposition of ammonium perchlorate (AP) containing a burning-rate modifier 135
Intrinsic kinetics of the thermal decomposition of sodium bicarbonate 177
A thermal study of the SiO_2–ZrO_2 sol–gel system 233
Calibration for the composition of polymeric composites using TG/GC 259
A method for the experimental determination of the kinetic characteristics of the thermal decomposition processes of inorganic compounds near the upper boundary of the metastable state 281
TG–DSC
A study by thermal analysis of the reversible folding in palygorskite under vacuum thermal treatment 83
TG–DTG
Reduced equations to estimate kinetic parameters from non-isothermal TG–DTG or DSC curves 101
The thermal decomposition of ammonium perchlorate (AP) containing a burning-rate modifier 135
Combustion reactions of antimony + potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193

Thiocyanatochromate
Thermal decomposition of analytically important thiocyanatochromates(III). Part 2 93
TPD
Evaluation of the relative acid strength of cerium and calcium exchanged Y zeolite by TG and DSC 129

Vapour
Adsorption et desorption de l'eau vapeur sur un polymère polyacrylique absorbant. Partie 3. Rôle de l'effet thermique local sur la cinétique d'adsorption 271
Vapour pressure
Vaporization enthalpies of a series of α,ω-alkanediols from vapour pressure measurements 65

Water
Crystallization in glass-forming aqueous solutions during warming: numerical construction of non-isothermal DSC thermocurves during warming from isothermal data. Application to 42.5% w/w 1,2-propanediol/water 157
Adsorption et desorption de l'eau vapeur sur un polymère polyacrylique absorbant. Partie 3. Rôle de l'effet thermique local sur la cinétique d'adsorption 271

XRD
Thermal decomposition of analytically important thiocyanatochromates(III). Part 2 93
Combustion reactions of antimony + potassium permanganate mixtures. Rate of propagation and influence of loading pressure 193
Properties and thermal decomposition in air atmosphere of Co(II), Ni(II), Cu(II) and Zn(II) benzene-1,2-dioxyacetates 241
XRPD
Synthesis of oxides, oxocarbides and carbides of molybdenum by thermal decomposition of diethylenetriamine oxomolybdenum compounds 167
Thermal stability of dithiocarbamates derived from α-amino acids with different metal ions 213

Zeolite
Evaluation of the relative acid strength of cerium and calcium exchanged Y zeolite by TG and DSC 129
Zirconia
The thermal decomposition of zirconium sulphate hydrate 223
A thermal study of the SiO_2–ZrO_2 sol–gel system 233
Zirconium sulphate
The thermal decomposition of zirconium sulphate hydrate 223
